

Mouse to cheese: Forward 2, right 1, forward 1, right 2, backwards 1, and left 1.

Children may use 'up' instead of 'forward' and 'down' instead of 'backwards'.

There are many possible routes. Alternative routes include:

Forward 1, right 2 and forward 1.

Forward 2, and right 2.

The snail has moved forward 3 squares. True.

The ladybird has moved forward 1 square. False. The ladybird has moved down 1 square.

The butterfly has moved right 2 squares. False. The butterfly has moved forwards 2 squares.

The spider has moved left 3 squares. True.

Children may use 'up' instead of 'forwards' and 'down' instead of 'backwards'.

Various possible answers. Accept any route that gets the butterfly to the locations in the correct order and has matching written instructions. Children should understand there is more than one possible way to move around the grid.
