

How to Make a Seaside Puppet Theatre

You will need:

- Two cardboard boxes
- Black paint
- A4 paper
- Glue
- Cardboard tubes
- Paint, paintbrushes
- Felt-tip pens

How to make your Puppet Theatre:

- Use two cardboard boxes, one facing down to be the stage and on top, the second box with the open side facing the audience. Cut the top side off to allow your puppets to hang down.
- Paint the cardboard theatre black. If you want a backdrop, these can be made or printed on A4 paper and stuck inside.
- You can make simple puppets using cardboard tubes tied together with string to make your own characters, or you can use hand puppets.
- Watch videos of professional puppet shows to give you ideas of how to decorate your puppet theatre and stories that you can act out.
