

# Our Corridor Displays

Nursery & Reception

Year 1

Year 2

Life is full of rainbows and butterflies. Rainbows are the reward for weathering life's storms and butterflies are the reward of growth and change.

Our displays focus on our children and the positivity that they have shown in returning to school. The past few months, and over the year, have been challenging for everyone but our children at George Fentham have shown resilience beyond anything we could have imagined. Each display shows collaboration between every pupil, in the school and, within their class. Children have become absorbed in their masterpieces and created imaginative and creative works of ART. Above all, their mental health and well-being has been at the fore front of our minds and you can see that their work reflects this. We are so proud of every single child at George Fentham. They truly are our rainbow in what has been quite a difficult storm.

What if I fall?  
Oh but what if you fly?
